

I claim:

1. Adjustable sealing means for preventing the leakage of a substance contained in a containment device comprising a cam and means to actuate said cam.
2. Adjustable sealing means as claimed in claim 1, wherein said cam actuating means comprises a bolt or screw.
3. Adjustable sealing means as claimed in claim 1, wherein said cam actuating means comprises a single bolt or screw
4. Adjustable sealing means as claimed in claim 3, further comprising a cam position indicator.
5. Adjustable sealing means as claimed in claim 4, wherein said containment device is a valve.
6. Adjustable sealing means as claimed in claim 4, wherein said containment device is a plug valve.
7. Adjustable sealing means for preventing the leakage of a substance contained in a containment device comprising a cover, a cam, a thrust collar, a seal and means to press said cam against said thrust collar and said thrust collar against said seal.
8. Adjustable sealing means as claimed in claim 7, wherein said pressing means comprises a bolt or screw acting on said cam.
9. Adjustable sealing means as claimed in claim 8, wherein said pressing means comprises a single bolt or screw.
